

**Melissa Ann Braham**  
(Formerly Melissa Ann Gamber)  
missy.braham@consciglobal.org

**Education**

2012	M.Sc., Wildlife and Fisheries Resources	West Virginia University
2005	B.Sc., Wildlife and Fisheries Resources	West Virginia University

**Current Experience**

Nov 2016 – present     **Director of Data Science & Analytics, Research Biologist**, Conservation Science Global, Inc., NJ

Feb 2013 – present     **Survey Technician I**, West Virginia University Research Corporation, WV

**Other Experience**

May 2010 – Dec 2012     **Graduate Research Assistant** MS Candidate, Designed, executed, and presented a laboratory investigation with yellow-phase American eel habitat selection in relation to age and size length, West Virginia University, WV

Jun 2007 – May 2010     **Biological Science Technician** GS 0404 06, Designed and conducted field projects to monitor two ESA listed species, Lost River sucker and shortnose sucker in the upper Klamath River Basin, US Bureau of Reclamation, OR

Mar 2007 – Jun 2007     **Biological Science Technician** GS 0404 05, Conducted field projects to monitor and enumerate two ESA listed species, Lost River sucker and shortnose sucker in the upper Klamath River Basin, US Geological Survey, OR

Dec 2005 – Oct 2006     **Fisheries Observer**, Collected biological data while onboard commercial fishing vessels and shore side processing plants, Alaskan Observers, Inc., AK

May 2005 – Oct 2005     **Service Volunteer**, Determined running timing and abundance of Pacific salmon and other resident fish through a resistance board weir along the Tuluksak River, US Fish and Wildlife Service, AK

May 2004 – May 2005     **Student Intern**, Conducted population and movement surveys of American eel along Shenandoah River, WVU Cooperative Fish and Wildlife Research Unit, WV

Jun 2004 – Aug 2004     **Fisheries Research Technician**, Conducted sauger and walleye movement and diet surveys to determine the potential for competition along the middle Missouri River, MSU Cooperative Fishery Research Unit, MT

Jun 2003 – Aug 2003     **Biological Science Technician** GS 0404 04, Conducted stream habitat surveys and fish species distribution and abundance along Tea Creek, US Forest Service, WV

May 2002 – May 2005     **Student Intern**, Participated in a variety of graduate student projects involving brook trout population dynamics, habitat use, and movement patterns in headwater streams, West Virginia University, WV

**Peer-Reviewed Publications**

### **Grants and Research Funding**

- National Fish & Wildlife Foundation. 2017. Assessing risk to Golden Eagles from wind turbine development: an adaptive management approach to building, validating, refining, and implementing risk models. Co-Pi with Todd Katzner, Adam Duerr, Maitreyi Sur, Sharon Poessel, and Tricia Miller. \$781,958.
- California Energy Commission. 2015. Learning from real-world experience to understand renewable energy impacts to wildlife. Co-PI with Todd Katzner, David Nelson, James Diffendorfer, Scott R. Loss, Julie Yee, Taber Allison, Adam Duerr, and Tricia Miller. \$1,000,000.
- ENEL Green Power. 2015. Conservation and management of bald eagles in Virginia. Co-PI with Todd Katzner, Jeff Cooper, Tricia Miller, and Adam Duerr. \$100,000.

National Fish and Wildlife Foundation. 2014. California condor flight response in a variable meteorological and topographic environment. Co-PI with Todd Katzner, Jonathan Hall, Tricia Miller, Adam Duerr, David Brandes, and Michael Lanzone. \$150,000.

California Department of Fish and Wildlife. 2014. Movement ecology of California condor within the DRECP area. Co-PI with Jonathan Hall, Adam Duerr, Tricia Miller, Phil Turk, and Todd Katzner. \$83,540.

### **Peer Review**

Reviewed manuscript for Wildlife Society Bulletin

### **Awards**

Star Award – completing a Biological Evaluation on a proposed 2010 Klamath Project operation document within an extremely short deadline, *April 2010*

Star Award – teamwork in deploying a rotary screw trap into the Link River, *July 2009*

Star Award – exceeding expectations by going above and beyond the requirement of her position with regards to project development and report writing, *February 2009*

Award of Appreciation – recognize work on The US Freedom of Information Act request, *August 2008*

Star Award – surveying, logistics and placement of rigging gear for spill test on Link River, *July 2008*

Star Award – daily commitment to safe work practices, *March 2008*

### **Certifications**

Hazard Waste Management / Federal Uniform Hazardous Waste Manifest, Hazard Communication / FRA training

B3 Combination Helicopter / Airplane Safety

Backpack Electrofishing and Fish Handling Techniques: Effective Methods for Maximizing Fish Capture and Survival (Meets NMFS and USFWS criteria)

Crane Safety Training, Division 3 Chapter 437 of OR OSHA to include “Core” plus capacities Hydro < 50 tons

Motorboat Operator Certification Course (MOCC), DOI

North Pacific Groundfish Observer Program, NOAA Fisheries

Bear Behavior and Firearm Safety, USFWS Region 7

Maryland Safe Boating, MD DNR

### **Additional Skills**

Database Management – MS Access and MS SQL Server

ArcGIS software (10.x) – managed and stored data in geodatabases, organized and prepared data for analysis, used Python add-ins, used GIS extensions (i.e. Tracking Analyst, Spatial Analyst), conducted geospatial analysis, estimated home ranges using aLoCoH, KDE, MCP estimators, determined nest, roost, and perch locations, determined migration connectivity using stable isotope values from IsoMAPs, modeled suitable orographic and updraft, mapped flight patterns and behavior in close proximity to renewable energy development, and created maps for field staff, reports, biological evaluations, webpages, and published manuscripts

Geospatial Modeling Environment software

Jenness Spatial tools (DEM Surface Tools, Land Facet Corridor Tools)

R statistical software – Akaike information criterion, descriptive statistics, generalized estimating equation, graphical data explorations, home range estimations (e.g. aLoCoH, KDE, MCP), linear mixed-effects models, multinomial logistical regression models, resource selection functions, and spatial data analysis

### **Professional Societies and Volunteer Activities**
